

RACIAL FAIRNESS

Nobody has to be perfect, but we have to accept them!

Racism is a big problem in the world. Black people are discriminated against, because they have different skin color. Sometimes there is also racism in sport like in football.

There is also still a big problem with the police, because they kill black people for no reason. So, there are also a lot of people who go on the street to protest against racism. In sports there are some athletes who are discriminated against because of their skin color and so they can't focus on the sport or even give up their career.

Racism is also a big issue in American schools. A study found out, that every second student is discriminated against. For this reason, they can get depressions, sadness or anger. Then most of the students don't want to go to school anymore and they don't trust anyone but their family.
